### REASONS FOR ALLOWANCE

1. Claims 1-49 are allowed. All claims thus being allowable, prosecution on the merits is closed in this application. A statement of the examiner's reasons for allowance is provided below in the paragraph which follows below.

2. The instant application is deemed to be directed to a nonobvious improvement over the inventions of Alfrey (U.S. Patent No. 6,504,650) and/or Spaeth et al. (U.S. Patent No. 5,808,323) disclosed, *inter alia*, by applicant as being representative examples in the art to which the instant invention pertains. In particular, said improvement provides apparatus for shaping an (input) optical beam bundle formed from a plurality of substantially parallel input optical beams disposed in a common plane of travel, comprising a plurality of first reflective facets oriented to deflect/transform the parallel input beams into a plurality of non-parallel intermediate beams, and a plurality of second reflective facets spatially disposed to receive a respective one of the intermediate beams at a different respective distance from the plane of travel of the input beam bundle, and oriented so as to deflect/transform the non-parallel intermediate beams into substantially parallel output beams as recited in each of the instant independent claims (e.g. Claim 1, Lines 5-7, 9-11, 13-14; Claim 20, Lines 7-9, 12-15; Claim 27, Lines 9-11, 13-17; Claim 42, Lines 4-9; Claim 43, Lines 11-14; Claim 48, 11-15). The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

5. Any other inquiry concerning this communication or earlier communications from the examiner should be directed to David N. Spector whose telephone number is (571) 272-2338. The examiner can normally be reached at this number Monday through Friday between 6:00 AM and 2:30 PM. The fax number for the organization where this application is assigned is (703) 872-9306.
